CHARGEAIR PPR54-10

PETROL ROTARY SCREW COMPRESSOR

SMALL SIZE, BIG POWER

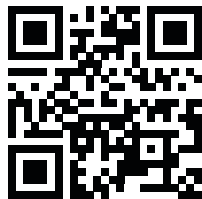

The ChargeAir PPR54-10 is the perfect alternative for air users looking for something smaller than an Airman box unit and better than a tank mounted piston type compressor.

// KEY FEATURES

- Perfect coupling with air tools for an independent package with no equivalent on the market.
- Weighs less than 200kg and easy to move with built in wheels.
- Suitable for mounting to a truck.
- Adjustable / Reversible handle. Adjustable in high and length for better maneuverability.
