# TAKE ADVANTAGE OF THE 2022 ASSET WRITE-OFF TAX BREAK!

The Government is continuing its extension on the 'Instant Asset Write Off' scheme, allowing them to 'gear up' and equip themselves to supercharge the recovery in the private sector and get on with business.

This scheme allows businesses the cash flow to invest in assets they require to succeed now and into the future. The recent 2022 budget announcement saw the extension of this scheme allowing a temporary 'full expensing' mechanism for businesses with a turnover of less than \$5 billion.

CAPS Australia is offering a range of End Of Financial Year specials on popular equipment, so that you can take advantage of this prior to the end of this financial year, combined with significant savings on the purchase cost. The Instant Asset Write Off Scheme is available across CAPS' complete range of equipment.

All units are stocked locally and are ready for immediate delivery and installation where applicable. Glenn McIntyre, CAPS Executive General Manager, further explains why you might not find a better opportunity to invest;

"Not only do CAPS have current stock of quality equipment, but we also offering legitimate deals on some of our most popular product lines for anyone wanting to purchase prior to June 30. Once this stock is gone, these prices won't continue", Glenn said.

"If you consider these factors coupled with the government's Instant Asset Write Off incentive, it makes sense to invest in the equipment you need now".

To view the complete range of equipment in stock, visit www.caps.com.au/campaign/eofy22 or call 1800 960 094 to speak to your local CAPS representative.
